

VESPID STRAIN LEADER

APL ▼2 MOVE 6" SAVE 5+ WOUNDS 10

NAME	ATK	HIT	DMG	WR
Neutron blaster	4	3+	3/3	Devastating 2
Claws	3	4+	3/4	-

Communion Helm: Once during each of this operative's activations, you can spend 1 Communion point for free.

Commune: When selecting your operatives for the battle, also select one **VESPID STINGWING** strategy ploy. Whenever this operative is in the killzone and isn't within control range of enemy operatives, that ploy costs you OCP.

VESPID STINGWING, T'AU EMPIRE, STRAIN, LEADER

(28)

OVERSIGHT DRONE

APL ▼2 MOVE 8" SAVE 2+ WOUNDS 5

NAME	ATK	HIT	DMG	WR
Ram	3	5+	1/2	-

RULES CONTINUE ON OTHER SIDE ►

VESPID STINGWING, T'AU EMPIRE, OVERSIGHT, DRONE

(25)

OVERSIGHT DRONE

APL ▼2 MOVE 8" SAVE 2+ WOUNDS 5

Evasive Drone:

- This operative cannot perform any actions other than **Aerial Guidance**, **Charge**, **Dash**, **Fall Back**, **Fight** and **Reposition**.
- Whenever determining control of an objective marker, treat this operative's APL stat as 1 lower. Note this isn't a change to its APL stat, so any changes are cumulative with this.
- Whenever determining what's visible to this operative, the round disc at the top of the miniature is its head.
- Whenever this operative has a Conceal order and is in cover, it cannot be selected as a valid target, taking precedence over all other rules (e.g. Seek, Vantage terrain) except being within 2".
- Whenever an operative is shooting this operative, ignore the Piercing weapon rule.

AERIAL GUIDANCE

1AP

► **SUPPORT.** Until the start of this operative's next activation, whenever another friendly **VESPID STINGWING** operative within 6" of this operative is shooting an enemy operative visible to this operative, that friendly operative's ranged weapons have the Lethal 5+ and Saturate weapon rules. This has no effect while this operative is within control range of an enemy operative.

◆ This operative cannot perform this action while within control range of an enemy operative.

VESPID LONGSTING

APL ▼2 MOVE 6" SAVE 5+ WOUNDS 9

NAME	ATK	HIT	DMG	WR
Neutron rail rifle (standard)	4	4+	4/4	Devastating 2, Neutron Fragment*
Neutron rail rifle (aimed)	4	3+	4/4	Devastating 2, Heavy (Dash only), Lethal 5+, Neutron Fragment*
Claws	3	4+	3/4	-

***Neutron Fragment:** If the target of this weapon isn't incapacitated but you resolve any attack dice, the target gains one of your Neutron Fragment tokens. Whenever an operative that has one of your Neutron Fragment tokens is activated, inflict D3 damage on it for each Neutron Fragment token it has (roll separately for each).

VESPID STINGWING, T'AU EMPIRE, LONGSTRING

(28)

VESPID SHADESTRAIN

APL **▼ 2** MOVE **6"** SAVE **3+** WOUNDS **9**

NAME	ATK	HIT	DMG	WR
Neutron sting	4	4+	3/3	Range 8", Devastating 2
Neutron grenade	4	4+	3/3	Range 6", Blast 2", Devastating 2, Limited 1, Saturate
Claws	3	4+	3/4	-

Ghost Rig: While this operative has a Conceal order, your opponent cannot select it as a valid target unless it's within 6" of the operative trying to target it. Note that this rule has no effect if this operative isn't selected as the valid target, e.g. if it's a secondary target from the Blast weapon rule.

Camouflaged: Whenever an operative is shooting this operative, ignore the Piercing weapon rule and all cover saves are retained as critical successes. This rule has no effect if this operative isn't selected as the valid target, e.g. if it's a secondary target from the Blast weapon rule.

VESPID STINGWING, T'AU EMPIRE, SHADESTRAIN

(28)

VESPID SKYBLAST

APL **▼ 2** MOVE **6"** SAVE **5+** WOUNDS **9**

NAME	ATK	HIT	DMG	WR
Neutron grenade launcher	4	4+	3/3	Blast 2", Devastating 2, Neutron Bombardment*
Claws	3	4+	3/4	-

***Neutron Bombardment:** Place one of your Neutron Fallout markers within the primary target's control range.

Neutron Fallout: Once during each enemy operative's activation, as soon as it's within 2" of one of your Neutron Fallout markers, inflict D3 damage on that operative (multiple markers aren't cumulative).

VESPID STINGWING, T'AU EMPIRE, SKYBLAST

(28)

VESPID SWARMGUARD

APL **▼ 2** MOVE **6"** SAVE **5+** WOUNDS **9**

NAME	ATK	HIT	DMG	WR
Flamer (standard)	4	2+	3/3	Range 8", Saturate, Torrent 2"
Flamer (skytorch)	4	2+	3/3	Saturate, Torrent 0", Skytorch*
Claws	3	4+	3/4	-

***Skytorch:** An operative can only use this weapon during the **Skytorch Assault** action (see other side of card). If it does, don't select a valid target. Instead, shoot against each operative within its torch zone (excluding operatives wholly underneath Vantage terrain); they aren't in cover or obscured. Roll each sequence separately in order of furthest operative to closest. The torch zone is the horizontal area between the operative's current and previous location. A 28mm round Skytorch marker can be temporarily placed underneath this operative before it moves to help determine this. **Torrent 0"** means you cannot select secondary targets outside of its torch zone, but this weapon still has the Torrent weapon rule for all other rules purposes, e.g. the Condensed Stronghold rule (see Killzone: Volkus, *Kill Team Core Book*).

RULES CONTINUE ON OTHER SIDE ▶

VESPID STINGWING, T'AU EMPIRE, SWARMGUARD

(28)

VESPID SWARMGUARD

APL **▼ 2** MOVE **6"** SAVE **5+** WOUNDS **9**

- SKYTORCH ASSAULT** 2AP
- ▶ Perform a free **Reposition** action with this operative. During that action, it must **FLY** and can move an additional 2". Then perform a free **Shoot** action. You can only select flamer (skytorch) for that **Shoot** action.
 - ◆ This operative cannot perform this action while it has a Conceal order, or while within control range of an enemy operative.

VESPID WARRIOR

APL

6"SAVE
5+WOUNDS
9

NAME	ATK	HIT	DMG	WR
Neutron blaster	4	4+	3/3	Devastating 2
Claws	3	4+	3/4	-

Warrior Instincts: Whenever this operative is shooting, if you don't spend Communion points during that sequence, its neutron blaster has the Accurate 1 weapon rule until the end of that sequence.

VESPID STINGWING, T'AU EMPIRE, WARRIOR

(28)

NOTES:

NOTES:

NOTES:

VESPID STINGWINGS KILL TEAM

ARCHETYPE: RECON, SEEK & DESTROY

OPERATIVES

- ↳ 1 **VESPID STINGWING** operative
- STRAIN LEADER** operative
- ↳ 1 **VESPID STINGWING** operative
- OVERSIGHT DRONE** operative
- ↳ 9 **VESPID STINGWING** operatives selected from the following list:
 - **LONGSTING**
 - **SHADESTRAIN**
 - **SKYBLAST**
 - **SWARMGUARD**
 - **WARRIOR**

Other than **WARRIOR** operatives, your kill team can only include each operative on this list once.

VESPID STINGWING FACTION RULE

COMMUNION

Other species struggle to understand and interact with Vespids. The T'au have managed to establish strong links through various technological aids, most notably their communion helms. The Vespids have accepted these aids as beneficial, but the true extent of their impact is unknown.

Communion points are used to maintain the tactical focus of friendly **VESPID STINGWING** operatives. In the Ready step of each Strategy phase, you gain D3 Communion points, plus 1 if a friendly **OVERSIGHT DRONE** operative is in the killzone. Communion points are used as follows (**OVERSIGHT DRONE** operatives aren't affected by the following):

RULE CONTINUES ON OTHER SIDE ►

VESPID STINGWING FACTION RULE

NEUTRON CHARGE

Neutron weapons are powered by radioactive crystals from the Vespid's home world. The harmonic thrumming of Vespid's wings resonates within the crystals to charge them. When unleashed, even heavy combat armour can barely protect against this atom-stripping energy charge.

Neutron weapons are any weapons that have the word 'neutron' in their name, e.g. neutron blaster, neutron grenade launcher, etc. Whenever a friendly **VESPID STINGWING** operative moves or uses **FLY**, its neutron weapons have the Piercing 1 weapon rule until the end of the turning point.

1. Whenever a friendly **VESPID STINGWING** operative is performing the **Shoot** action, it can only target the closest enemy operative within 8" of it (excluding enemy operatives within control range of other friendly **VESPID STINGWING** operatives) unless you spend 1 of your Communion points. For weapons with the Blast and Torrent weapon rules, only the first target must be selected in this way.
2. Whenever a friendly **VESPID STINGWING** operative performs the **Charge** action, it must end the action within control range of the closest enemy operative it can unless you spend 1 of your Communion points.
3. Whenever you would perform the **Pick Up Marker** or a mission action (excluding **Operate Hatch**) with a friendly **VESPID STINGWING** operative, you must also spend 1 of your Communion points to do so.
4. Whenever a friendly **VESPID STINGWING** operative is shooting, you can spend 1 (and only 1) of your Communion points to re-roll one of your attack dice.

VESPID STINGWING[®] FACTION RULE

FLY

The thrumming wings of the Vespid bear them aloft with speed and remarkable agility.

Whenever a friendly VESPID STINGWING[®] operative performs an action in which it moves, it can **FLY**. If it does, don't move it. Instead, remove it from the killzone and set it back up wholly within a distance equal to its Move stat (or 3" if it was a **Dash**) horizontally of its original location (in a killzone that uses the close quarters rules, e.g. Killzone: Gallowdark, this distance cannot be measured over or through Wall terrain, and that operative cannot be set up on the other side of an access point – in other words it cannot **FLY** through an open hatchway). Note that it gains no additional distance when performing the **Charge** action. It must be set up in a location it can be placed, and unless it's the **Charge** action, it cannot be set up within control range of an enemy operative.

VESPID STINGWING[®] MARKER/TOKEN GUIDE

Neutron
Fragment
token

Neutron
Fallout
marker

Neutron
Grenade token

Skytorch marker

Communion point token

VESPID STINGWING[®] STRATEGY PLOY

HARDENED EXOSKELETON

Natural exoskeletal chitin armours the Vespid, giving them an insectile resilience against all but the most grievous blows.

Whenever a friendly VESPID STINGWING[®] operative (excluding **OVERSIGHT DRONE**) is fighting or retaliating, Normal Dmg of 4 or more inflicts 1 less damage on it.

VESPID STINGWING[®] STRATEGY PLOY

AERIAL AGILITY

Vespids jink and weave through the air, following unpredictable flight paths that confound foes who have not had time to line up clean shots.

Whenever an operative is shooting a friendly VESPID STINGWING[®] operative while counteracting, or during an activation in which that shooting operative moved or was set up, roll one D6 whenever an attack dice would inflict Normal Dmg: on a 5+, ignore that inflicted damage. You cannot ignore more than one attack dice per **Shoot** action sequence this way.

VESPID STINGWING[◆] STRATEGY PLOY

AIRBORNE PREDATORS

Hard-wired instincts see the Vespids pounce upon their victims from on high, striking with lethal predatory intent.

Whenever a friendly VESPID STINGWING[◆] operative moves or uses FLY during its activation, its weapons have the Balanced weapon rule until the end of that activation.

VESPID STINGWING[◆] STRATEGY PLOY

STING

The bayonet-like stingers that jut from the Vespids' abdomens can be employed as weapons, their vicious barbs piercing plate armour and driving deep into their victims' bodies.

Improve the Hit stat of friendly VESPID STINGWING[◆] operatives' claws by 1, and those weapons have the Lethal 5+ and Shock weapon rules.

VESPID STINGWING[◆] FIREFIGHT PLOY

OCELLI

The multispectral eyesight and esoteric sensory acuity of the Vespids are equal to any scanning technologies. As they sweep over the battlefield, they easily pick out even the most well-concealed enemies.

Use this firefight ploy when a friendly VESPID STINGWING[◆] operative performs the Shoot action during an activation in which it's used FLY. Until the end of that action, it gains all benefits from the first and second main features of Vantage terrain. When determining the height difference between operatives for Vantage terrain rules, treat that friendly operative as being 3" higher than it currently is (but not when determining the distance for Communion).

VESPID STINGWING[◆] FIREFIGHT PLOY

DARTING FLIGHT

Vespids are capable of tremendous airborne speed, allowing them to rapidly reposition during a firefight.

Use this firefight ploy when a friendly VESPID STINGWING[◆] operative performs the Reposition action. Until the end of that action, it can move an additional D3", or be set up an additional D3" away if it uses FLY. In either case, it cannot perform Shoot or Fight actions for the rest of the turn.

VESPID STINGWING[®] FIREFIGHT PLOY

NEUTRON OVERLOAD

Augmented in some ineffable fashion by the rapid wing beats of the Vespids, their neutron weaponry can unleash horrific point-blank energy blasts.

Use this firefight ploy when you resolve a critical success for a friendly **VESPID STINGWING[®]** operative that's shooting with a neutron weapon during an activation in which it's moved or used **FLY**. If the target is within 4" of it, inflict D3 additional damage.

VESPID STINGWING[®] FIREFIGHT PLOY

VICIOUS VENOM

Many Strains of Vespid produce various neurotoxins and inflammatory agents from their abdominal stingers, which can reduce victims to convulsing wrecks or anaphylactically bloat their flesh to bursting point.

Use this firefight ploy when a friendly **VESPID STINGWING[®]** operative (excluding **OVERSIGHT DRONE**) is fighting and you strike with a critical success. Inflict D3 additional damage.

VESPID STINGWING[®] FACTION EQUIPMENT

NEUROSTIMULANT

Dispensed from ampoules within the Vespid's armour, this chemical cocktail is intended to aid the clarity of communion and ensure discipline is maintained during battle.

In the Ready step of each Strategy phase, when determining how many Communion points to gain, you can roll two D3 and select one D3 to use.

VESPID STINGWING[®] FACTION EQUIPMENT

CONVERGENCE STIMULANT

This substance, dispensed only in extreme cases and at the Shas'ui's discretion, suppresses the instinctual responses of the Vespids to aid in mission focus under extreme stress.

Once per turning point, a friendly **VESPID STINGWING[®]** operative can perform the **Pick Up Marker** or a mission action without you spending a Communion point.

VESPID STINGWING FACTION EQUIPMENT

ACCELERANT STIMULANT

Though it bears long-term risks of injury or dangerous fatigue, this stimulant sharpens the Vespids' reactions and lends them haste in the heat of battle.

Whenever a friendly **VESPID STINGWING** operative (excluding **OVERSIGHT DRONE**) performs the Charge or Dash action, it can move an additional 1". If it uses FLY for this action, you can set it back up 1" further away.

VESPID STINGWING FACTION EQUIPMENT

AGGRESSION STIMULANT

Should their Vespids look in danger of being overrun, a Shas'ui may risk triggering the release of this highly-addictive mixture of combat stimulants and aggression amplifiers.

Whenever a friendly **VESPID STINGWING** operative (excluding **OVERSIGHT DRONE**) is fighting, its melee weapons have the Ceaseless weapon rule.

UNIVERSAL EQUIPMENT

1X AMMO CACHE

Whether stockpiles deliberately set out for warriors to access quickly, or the abandoned munitions of the slain, these caches can prove vital for a swift reload in the heat of battle.

Before the battle, you can set up one of your Ammo Cache markers wholly within your territory. Friendly operatives can perform the following mission action during the battle.

AMMO RESUPPLY OAP

- One of your Ammo Cache markers the active operative controls is used during this turning point.
- Until the start of the next turning point, whenever this operative is shooting with a weapon from its datacard, you can re-roll one of your attack dice.
- ◆ An operative cannot perform this action while within control range of an enemy operative, if that marker isn't yours, or if that marker has been used this turning point.

UNIVERSAL EQUIPMENT

1X RAZOR WIRE

Spoiled rapidly out and affixed to jutting posts, razor wire acts as an easily deployed barrier and a painful deterrent to enemy operatives seeking to attack along particular routes.

Razor wire is Exposed and Obstructing terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Obstructing: Whenever an operative would cross over this terrain feature within 1" of it, treat the distance as an additional 1".

UNIVERSAL EQUIPMENT

1X COMMS DEVICE

Communications devices can be swiftly hijacked and employed to coordinate operations or call in support during a firefight.

Before the battle, you can set up one of your Comms Device markers wholly within your territory. While a friendly operative controls this marker, add 3" to the distance requirements of its **SUPPORT** rules that refer to friendly operatives (e.g. 'select one friendly operative within 6"' would be 9" instead). Note that you cannot benefit from your opponent's Comms Device markers.

UNIVERSAL EQUIPMENT

1X MINES

The battlefields of the 41st Millennium are plagued by myriad types of mine, from simple frag charges to monofilament web-snare and microplasma charges. Ultimately, all serve a similar, horrible purpose.

Before the battle, you can set up one of your Mines markers wholly within your territory and more than 2" from other markers, access points and Accessible terrain. The first time that marker is within an operative's control range, remove that marker and inflict D3+3 damage on that operative.

UNIVERSAL EQUIPMENT

2X LIGHT BARRICADES

Designed to be lugged into place and then deployed by operatives and combat engineers, these barriers are proof against small arms fire.

Light barricades are Light terrain, except the feet, which are Insignificant and Exposed. Before the battle, you can set up any of them wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

1X HEAVY BARRICADE

A redoubtable slab of plasteel and adamantine, this layered protective barrier provides shelter amidst the fiercest firefights.

A heavy barricade is Heavy terrain. Before the battle, you can set it up wholly within 4" of your drop zone, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

UNIVERSAL EQUIPMENT

2X LADDERS

Carried into battle in their compacted forms, these ladders provide a rapid route of ingress to strongholds, or access to vital vantage points.

Ladders are Exposed terrain. Before the battle, you can set up any of them as follows:

- Wholly within your territory.
- Upright against terrain that's at least 2" tall.
- More than 2" from other equipment terrain features.
- More than 1" from doors and access points.

In addition, an operative can either move through ladders as if they aren't there (but cannot finish on them), or climb them. Once per action, whenever an operative is climbing this terrain feature, treat the vertical distance as 1". Note that if an operative then continues climbing another terrain feature during that action (including another ladder), that distance is determined as normal.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

STUN GRENADE

1AP

- Select one enemy operative visible to and within 6" of this operative. That operative and each other operative within 1" of it takes a stun test. For an operative to take a stun test, roll one D6: on a 3+, subtract 1 from its APL stat until the end of its next activation.
- ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

UNIVERSAL EQUIPMENT

EXPLOSIVE GRENADES

A variety of offensive grenades are employed by the forces of the 41st Millennium. These range from simple fragmentation grenades to plasma and gravitic concussion grenades, while even more exotic devices are used to crack open enemy armour.

When you select this equipment, select two explosive grenades (2 frag, 2 krak, or 1 frag and 1 krak). Each selection is a ranged weapon your operatives can use, but your kill team can only use that weapon a total number of times during the battle equal to your selection.

NAME

ATK HIT DMG

■■■ Frag grenade

4 4+ 2/4

Range 6", Blast 2", Saturate

NAME

ATK HIT DMG

■■■ Krak grenade

4 4+ 4/5

WR

Range 6", Piercing 1, Saturate

UNIVERSAL EQUIPMENT

1X PORTABLE BARRICADE

Little more than a suppression shield with armoured feet, these barricades can be hefted and borne forwards to provide mobile cover.

A portable barricade is Light, Protective and Portable terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Protective: While an operative is in cover from this terrain feature, improve its Save stat by 1 (to a maximum of 2+).

RULE CONTINUES ON OTHER SIDE

Portable: This terrain feature only provides cover while an operative is connected to it and if the shield is intervening (ignore its feet). Operatives connected to the inside of it can perform the following unique action during the battle.

MOVE WITH BARRICADE 1AP

► The same as the **Reposition** action, except the active operative can move no more than its Move stat minus 2" and cannot climb, drop, jump or use any kill team's rules that remove it and set it back up again (e.g. **HEARTKYN SALVAGER** FLY, **MANDRAKE** SHADOW PASSAGE).

► Before this operative moves, remove the portable barricade it's connected to. After it moves, set up the portable barricade so it's connected again, but the portable barricade cannot be set up within 2" of other equipment terrain features, access points or Accessible terrain. If this is not possible, the portable barricade is not set up again.

◆ This action is treated as a **Reposition** action. An operative cannot perform this action while within control range of an enemy operative, or during the same activation in which it performed the **Fall Back** or **Charge** action.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

RULE CONTINUES ON OTHER SIDE

SMOKE GRENADE

1AP

- ▶ Place one of your Smoke Grenade markers within 6" of this operative. It must be visible to this operative, or on Vantage terrain of a terrain feature that's visible to this operative. The marker creates an area of smoke 1" horizontally and unlimited height vertically from (but not below) it.
 - ▶ While an operative is wholly within an area of smoke, it's obscured to operatives more than 2" from it, and vice versa. In addition, whenever an operative is shooting an enemy operative wholly within an area of smoke, ignore the Piercing weapon rule unless they are within 2" of each other.
 - ▶ In the Ready step of the next Strategy phase, roll one D3. Remove that Smoke Grenade marker after a number of activations equal to that D3 have been completed or at the end of the turning point (whichever comes first).
 - ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

NOTES:

NOTES:

VESPID STINGWINGS: UPDATE LOG

Rules will be periodically updated to maintain fair balance and interact more smoothly with the game. Rules changes will be updated directly into online documents and then listed below. Any minor changes to standardise wording that don't have any practical impact on the rule will be updated directly into online documents but not be listed here.

RULES COMMENTARY

JUNE '25

This section provides clarification on ambiguous and complex rules interactions.

Q: *If there are no enemy operatives within 8" of a friendly VESPID STINGWING® operative, do I need to spend a Communion point to target an enemy operative more than 8" from it?*

A: Yes.

PREVIOUS ERRATAS

This section collects amendments to the rules. Amended text for clarification and edits are shown in blue, while amended text for balance updates are shown in magenta.

OVERSIGHT DRONE OPERATIVE, EVASIVE DRONE RULE

Fourth bullet point changed to read:

'Whenever this operative has a Conceal order and is in cover, it cannot be selected as a valid target, taking precedence over all other rules (e.g. Seek, Vantage terrain) except being within 2".'

OVERSIGHT DRONE OPERATIVE, AERIAL GUIDANCE ACTION

Second sentence of effect changed to read:

'Until the start of this operative's next activation, whenever another friendly VESPID STINGWING® operative visible to and within 6" of this operative is shooting an enemy operative visible to this operative, that friendly operative's ranged weapons have the Lethal 5+ and Saturate weapon rules.'

SWARMGUARD OPERATIVE

'Skytorch Assault' unique action added.

SWARMGUARD OPERATIVE, FLAMER (SKYTORCH) WEAPON

'Saturate' and 'Torrent 0"' weapon rules added.

SWARMGUARD OPERATIVE, SKYTORCH WEAPON RULE

First sentence changed to read:

'An operative can only use this weapon during the Skytorch Assault action (see other side of card).'

Additional text added to end of paragraph:

'Torrent 0" means you cannot select secondary targets outside of its torch zone, but this weapon still has the Torrent weapon rule for all other rules purposes, e.g. the Condensed Stronghold rule (see Killzone: Volkus, Kill Team Core Book).'

LONGSTING OPERATIVE, NEUTRON FRAGMENT WEAPON RULE

Last sentence changed to read:

'Whenever an operative that has one of your Neutron Fragment tokens is activated, inflict D3 damage on it for each Neutron Fragment token it has (roll separately for each).'

FACTION RULES, NEUTRON CHARGE

Second sentence changed to read:

'Whenever a friendly VESPID STINGWING® operative moves or uses FLY, its neutron weapons have the Piercing 1 weapon rule until the end of the turning point.'

FACTION RULES, COMMUNION

Relevant part of second sentence of first paragraph changed to read:

'In the Ready step of each Strategy phase, remove all Communion points from the previous turning point, then you gain D3 Communion points, [...]'

Relevant part of 3. changed to read:

'Whenever you would perform the Pick Up Marker or a mission action (excluding Operate Hatch) with a friendly VESPID STINGWING® operative, [...]'

STRATEGY PLOYS, AIRBORNE PREDATORS

Changed to read:

'Whenever a friendly VESPID STINGWING® operative moves or uses FLY during its activation, its weapons have the Balanced weapon rule until the end of that activation.'

FIREFIGHT PLOYS, OCELLI

Last sentence changed to read:

'Until the end of that action, it gains all benefits from the first and second main features of Vantage terrain. When determining the height difference between operatives for Vantage terrain rules, treat that friendly operative as being 3" higher than it currently is (but not when determining the distance for Communion).'

STRATEGY PLOYS, STING

Changed to read:

'Improve the Hit stat of friendly VESPID STINGWING® operatives' claws by 1, and those weapons have the Lethal 5+ and Shock weapon rules.'

TEAM SELECTION

Third arrow bullet point changed to read:

'9 VESPID STINGWING® operatives selected from the following list:'

VESPID STINGWING OPERATIVES

STRAIN LEADER

2

It is the task of the Strain Leader to interpret the commands of their kill team's handler and then ensure their operatives comply. What precise role this formidable flying warrior occupies within the enigmatic hierarchies of their people is unclear, but the Vespids under their command obey – in most cases – without question.

OVERSIGHT DRONE

The MV44 Oversight Drone is an adaptation of aerial reconnaissance units originally deployed by the Air caste to survey potentially hostile worlds before invasion. Linked directly to the kill team's handler, it is an invaluable source of up-to-the-moment tactical intelligence. Meanwhile, its speed and agility make it a difficult target for enemy marksmen.

LONGSTING

Though most Mal'kor are inclined towards aggressive, close-quarters firefights, some channel their predatory instincts into picking off foes from afar. The most talented of these become Longstings. A Longsting employs their power of flight to swiftly relocate between ideal vantage points, making for an elusive and deadly sniper amidst dense terrain.

SHADESTRAIN

Though still a rare sight on the battlefields of the 41st Millennium, a Shadestrain is a powerful asset to any Vespid kill team. Their ghost rig hides them behind a veiling stealth field that smothers sound, sight and even energetic impressions as they move into position, then strike with their potent neutron sting.

WARRIOR

The bulk of most Mal'kor kill teams is comprised of Warriors. Resilient, swift and strong, they are natural combatants. When these advantages are married up to the Vespids' ability to fly at high speeds with jinking agility, and the heavy firepower afforded by the Warriors' neutron blasters, it is easy to see why these are operatives to be feared and respected.

'BY THE TIME YOU HEAR THE DRONE OF THEIR BEATING WINGS, IT'S ALREADY TOO LATE...'

- Hyden Kvoss, survivor of the Boross Incident

SKYBLAST

A Vespid Skyblast wields the recently developed neutron grenade launcher to great effect. The indiscriminate blasts of this weapon lessen the need for pinpoint accuracy, meaning this operative often stays on the move, even while lobbing volleys of fire into the most close-packed knots of their enemies to devastating effect.

SWARMGUARD

Though Vespids have some natural advantages in close combat, their teams risk being overrun by especially numerous or savage combatants. Driving back such enemies falls to the Swarmguard, whose T'au flamer projects roaring jets of chemical fire that can incinerate groups of foes, spreading panic and agony amidst enemy ranks.

Below you will find a list of the operatives that make up a **VESPID STINGWING** kill team, including, where relevant, any weapons specified for that operative.

OPERATIVES

- ↳ 1 **VESPID STINGWING** STRAIN LEADER operative
- ↳ 1 **VESPID STINGWING** OVERSIGHT DRONE operative
- ↳ 9 **VESPID STINGWING** operatives selected from the following list:
 - **LONGSTING**
 - **SHADESTRAIN**
 - **SKYBLAST**
 - **SWARMGUARD**
 - **WARRIOR**

Other than **WARRIOR** operatives, your kill team can only include each operative on this list once.

ARCHETYPES

DESIGNER'S COMMENTARY

Vespid Stingwings are an offensive kill team with swarm-like instinctual behaviours. They have some powerful ranged weapons, but your operatives will always prioritise a close threat, so you'll have to plan your attacks to maximise their offensive potential.

6

As a player, imagine yourself as a member of the T'au Fire caste working to control this highly aggressive xenos species. This is done through Communion points – a representation of the T'au's efforts to command the Vespid. Ordinarily, your operatives will overlook objectives and prioritise attacking a close enemy. If you wish to exert more tactical control, you'll need to spend Communion points.

Communion points are a limited resource that temporarily allows you to ignore a Vespid's weakness. You'll have to spend them wisely though, particularly if your opponent understands Vespid behaviour and positions their operatives appropriately to exploit it. Against a highly aggressive enemy, however, you may be able to swarm them – always shooting and charging the closest enemy operative – saving you Communion points for key re-rolls instead.

Vespid shooting can be some of the most devastating in the game. When they move, they charge up their neutron weapons. Combine this with the Airborne Predators strategy ploy and even your most basic neutron weapon will have Piercing 1, Balanced and Devastating 2. Vespids have no way of improving their APL stat, however, so moving and shooting can leave them vulnerable to enemy counterattacks. Carefully consider your timing and angles of attack, as well as the Hardened Exoskeleton and Aerial Agility strategy ploys, to preserve your operatives after they've engaged.

Vespids are capable of bullying weaker operatives when fighting. The Sting strategy ploy and Aggression Stimulant equipment add up to make their low 3 attack claws Lethal 5+, Shock and Ceaseless. This makes your team a hybrid against teams with 7 wounds and low attacks – they can pivot to this style of play when needed.

'WE GIVE THEM THE TOOLS OF MARTIAL EXCELLENCE. THEY, IN RETURN, GIVE US THEIR LIVES TO SPEND. IT SEEMS AT TIMES A DESPERATE TRADE.'

- Shas'uui Bor'kan Ghol, sequestered for re-education in the tenets of the T'au'Va

This team has strong mobility, being able to fly across the board while ignoring terrain and other operatives. This can allow you to land ambushes against unsuspecting enemies, gain ground on Vantage terrain and reposition quickly as the battle develops. Your opponent should be wary of this mobile threat, but you need to be mindful of being too aggressive. It can be tempting to deal alpha strikes and engage fast, but if your opponent can survive it, your operatives will now be out of position and vulnerable for the latter stages of the battle.

Overall, the Vespid Stingwings are a team with dangerous shooting and excellent mobility, but they must be carefully managed – particularly against a canny opponent – as their tactical application can be a weakness. Think carefully about when to use your Communion points, be clever with your movement and try to control the flow of battle so that the fighting and shooting are on your terms.
