Until the start of the next turning point, that other enemy operative cannot control markers or perform the **Pick Up Marker** or mission actions.

Crimson Duellist: The first time this operative performs the **Fight** action during each of its activations, if neither it nor the enemy operative in that sequence is incapacitated, this operative can immediately perform a free **Fight** action afterwards, but you cannot select any other enemy operative to fight against during that action (and only if it's still valid to fight against). This takes precedence over action restrictions.

HAND OF THE ARCHON FACTION RULE

POWER FROM PAIN

The Drukhari feed on the souls of their slain and tortured victims, drawing sustenance from the terrible agonies they inflict.

After a friendly **HAND OF THE ARCHON** operative performs an action, it gains one of your Pain tokens if:

- An enemy operative was injured during that action, but was not incapacitated.
- An enemy operative was incapacitated during that action. If that enemy operative had a Wounds stat of 12 or more, that friendly operative gains two of your Pain tokens instead.

You can spend friendly operatives' Pain tokens on invigoration when the 'when' condition is met. You cannot use more than one invigoration per activation or counteraction, except Stimulated Senses, which can be used once per activation or counteraction in addition to another invigoration.

CONTINUES ON OTHER SIDE ►

INVIGORATIONS

Dark Animus

When: During the operative's activation, before or after it performs an action.

Effect: Until the start of the operative's next activation, add 1 to its APL stat.

Accelerated Rejuvenation

When: During the operative's activation or counteraction, before or after it performs an action.

Effect: The operative regains D3+1 lost wounds.

Vitalised Surge

When: After the operative incapacitates an enemy operative and that enemy operative is removed from the killzone.

Effect: The operative can immediately perform a free **Dash** action, even if it's performed an action that prevents it from performing the **Dash** action.

Stimulated Senses

When: After rolling your attack or defence dice for the operative.

Effect: You can re-roll one of your dice.

HAND OF THE ARCHON® FACTION RULE

RIFLES

The long-barrelled splinter rifles carried by Kabalite Warriors are incredibly accurate in the hands of a skilled user.

Whenever a friendly **HAND OF THE ARCHON®** operative is shooting with a splinter rifle during an activation in which it hasn't performed the **Charge**, **Fall Back** or **Reposition** action, that weapon has the Accurate 1 weapon rule. HAND OF THE ARCHON® STRATEGY PLOY

BLADE ARTISTS

The Drukhari have made a macabre art form of melee combat, slaughtering their victims with flensing strikes and heart-piercing thrusts.

Friendly **HAND OF THE ARCHON®** operatives' melee weapons have the Rending weapon rule.

HAND OF THE ARCHON® STRATEGY PLOY

MERCILESS SADISTS

The Drukhari are sustained by the agony of others and are devoid of pity. There is no act of depraved torture to which they will not stoop.

Whenever a friendly **HAND OF THE ARCHON®** operative is shooting against or fighting against a wounded enemy operative, that friendly operative's weapons have the Balanced weapon rule.

HAND OF THE ARCHON[®] STRATEGY PLOY

FROM DARKNESS, DEATH

Honour is an alien concept to the Drukhari. They make use of distraction and misdirection to butcher unsuspecting foes from the shadows.

Whenever a friendly **HAND OF THE ARCHON[®]** operative is activated, before you determine its order, you can select one enemy operative that friendly operative isn't a valid target for. Until the end of that activation, the first time that friendly operative is shooting against or fighting against that enemy operative, you can retain one of your normal successes as a critical success instead.

HAND OF THE ARCHON[®] STRATEGY PLOY

DENIZENS OF NIGHT

Hailing from Commorragh – the Dark City – the Drukhari are born and raised in shadow, and use it to conceal their movements.

Whenever an enemy operative is shooting a friendly **HAND OF THE ARCHON[®]** operative that's more than 2" from enemy operatives, if Heavy terrain is intervening, or any part of that friendly operative's base is underneath Vantage terrain, you can re-roll one of your defence dice.

HAND OF THE ARCHON[®] FIREFIGHT PLOY

CRUEL DECEPTION

The denizens of the Dark City are well versed in deceit and betrayal. In battle, they put these talents to good use, hitting their foes hard before melting away into the shadows.

Use this firefight ploy during a friendly **HAND OF THE ARCHON[®]** operative's activation, before or after it performs an action. During that activation, that operative can perform the **Fall Back** action for 1 less AP.

HAND OF THE ARCHON[®] FIREFIGHT PLOY

DEVIOUS SCHEME

Schemers all, the Drukhari are used to staying one step ahead of their opponents and confounding their every move.

Use this firefight ploy after an opponent uses a firefight ploy (excluding one that costs 0CP). The next time they would use that ploy, they must spend 1 additional CP to do so (at which point this effect ends). You cannot use this ploy again during the battle until its effect has ended.

HAND OF THE ARCHON® FIREFIGHT PLOY

HEINOUS ARROGANCE

To the conceited Drukhari, all opponents are little more than vermin – to be ignored or exterminated.

Use this firefight ploy when it's your turn to activate a friendly operative. You can skip that activation.

HAND OF THE ARCHON® FIREFIGHT PLOY

PREY ON THE WOUNDED

Drukhari are drawn to agony, seeking out the injured to land a killing blow.

Use this firefight ploy after rolling your attack dice for a friendly **HAND OF THE ARCHON®** operative, if it's shooting against or fighting against a wounded enemy operative. You can re-roll any of your attack dice.

HAND OF THE ARCHON® FACTION EQUIPMENT

CHAIN SNARE

Composed of hooked blades attached to a length of chain, this weapon bites into the flesh or armour of the wielder's target, preventing them from fleeing.

Whenever an enemy operative would perform the **Fall Back** action while within control range of a friendly **HAND OF THE ARCHON®** operative, if no other enemy operatives are within that friendly operative's control range, you can use this rule. If you do, roll two D6, or one D6 if that enemy operative has a higher Wounds stat than that friendly operative. If any result is a 4+, that enemy operative cannot perform that action during that activation/counteraction (no AP are spent on it).

HAND OF THE ARCHON® FACTION EQUIPMENT

WICKED BLADES

Light yet deadly, the jagged edge of this blade has been crafted to ensure maximum agony as it's plunged into the flesh of a victim.

Add 1 to the Atk stat of friendly **HAND OF THE ARCHON®** operatives' array of blades.

HAND OF THE ARCHON

FACTION EQUIPMENT

TOXIN COATING

Drukhari raiders are known to coat their blades in venom, ensuring that even the slightest nick of blade against flesh is fatal.

Up to twice per turning point, whenever a friendly **HAND OF THE ARCHON** operative is fighting or retaliating and you're selecting a melee weapon, you can use this rule. If you do, until the end of that sequence, that operative's melee weapon has the Lethal 5+ weapon rule.

HAND OF THE ARCHON

FACTION EQUIPMENT

REFINED POISON

Splinter rounds are infused with exquisitely lethal concoctions distilled from the potent venoms and toxins of deadly flora and fauna.

Up to twice per turning point, whenever a friendly **HAND OF THE ARCHON** operative is performing the **Shoot** action and you select a shardcarbine, splinter cannon, splinter pistol, splinter rifle or stinger pistol, you can use this rule. If you do, until the end of that action, add 1 to the Normal Dmg stat of that weapon.

UNIVERSAL EQUIPMENT

1X AMMO CACHE

Whether stockpiles deliberately set out for warriors to access quickly, or the abandoned munitions of the slain, these caches can prove vital for a swift reload in the heat of battle.

Before the battle, you can set up one of your Ammo Cache markers wholly within your territory. Friendly operatives can perform the following mission action during the battle.

AMMO RESUPPLY OAP

- One of your Ammo Cache markers the active operative controls is used during this turning point.
- Until the start of the next turning point, whenever this operative is shooting with a weapon from its datacard, you can re-roll one of your attack dice.
- ◆ An operative cannot perform this action while within control range of an enemy operative, if that marker isn't yours, or if that marker has been used this turning point.

UNIVERSAL EQUIPMENT

1X RAZOR WIRE

Spoiled rapidly out and affixed to jutting posts, razor wire acts as an easily deployed barrier and a painful deterrent to enemy operatives seeking to attack along particular routes.

Razor wire is Exposed and Obstructing terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Obstructing: Whenever an operative would cross over this terrain feature within 1" of it, treat the distance as an additional 1".

UNIVERSAL EQUIPMENT

1X COMMS DEVICE

Communications devices can be swiftly hijacked and employed to coordinate operations or call in support during a firefight.

Before the battle, you can set up one of your Comms Device markers wholly within your territory. While a friendly operative controls this marker, add 3" to the distance requirements of its **SUPPORT** rules that refer to friendly operatives (e.g. 'select one friendly operative within 6"' would be 9" instead). Note that you cannot benefit from your opponent's Comms Device markers.

UNIVERSAL EQUIPMENT

1X MINES

The battlefields of the 41st Millennium are plagued by myriad types of mine, from simple frag charges to monofilament web-snare and microplasma charges. Ultimately, all serve a similar, horrible purpose.

Before the battle, you can set up one of your Mines markers wholly within your territory and more than 2" from other markers, access points and Accessible terrain. The first time that marker is within an operative's control range, remove that marker and inflict D3+3 damage on that operative.

UNIVERSAL EQUIPMENT

2X LIGHT BARRICADES

Designed to be lugged into place and then deployed by operatives and combat engineers, these barriers are proof against small arms fire.

Light barricades are Light terrain, except the feet, which are Insignificant and Exposed. Before the battle, you can set up any of them wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

1X HEAVY BARRICADE

A redoubtable slab of plasteel and adamantine, this layered protective barrier provides shelter amidst the fiercest firefights.

A heavy barricade is Heavy terrain. Before the battle, you can set it up wholly within 4" of your drop zone, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

UNIVERSAL EQUIPMENT

2X LADDERS

Carried into battle in their compacted forms, these ladders provide a rapid route of ingress to strongholds, or access to vital vantage points.

Ladders are Exposed terrain. Before the battle, you can set up any of them as follows:

- Wholly within your territory.
- Upright against terrain that's at least 2" tall.
- More than 2" from other equipment terrain features.
- More than 1" from doors and access points.

In addition, an operative can either move through ladders as if they aren't there (but cannot finish on them), or climb them. Once per action, whenever an operative is climbing this terrain feature, treat the vertical distance as 1". Note that if an operative then continues climbing another terrain feature during that action (including another ladder), that distance is determined as normal.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

STUN GRENADE

1AP

- Select one enemy operative visible to and within 6" of this operative. That operative and each other operative within 1" of it takes a stun test. For an operative to take a stun test, roll one D6: on a 3+, subtract 1 from its APL stat until the end of its next activation.
- ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

UNIVERSAL EQUIPMENT

EXPLOSIVE GRENADES

A variety of offensive grenades are employed by the forces of the 41st Millennium. These range from simple fragmentation grenades to plasma and gravitic concussion grenades, while even more exotic devices are used to crack open enemy armour.

When you select this equipment, select two explosive grenades (2 frag, 2 krak, or 1 frag and 1 krak). Each selection is a ranged weapon your operatives can use, but your kill team can only use that weapon a total number of times during the battle equal to your selection.

UNIVERSAL EQUIPMENT

1X PORTABLE BARRICADE

Little more than a suppression shield with armoured feet, these barricades can be hefted and borne forwards to provide mobile cover.

A portable barricade is Light, Protective and Portable terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Protective: While an operative is in cover from this terrain feature, improve its Save stat by 1 (to a maximum of 2+).

RULE CONTINUES ON OTHER SIDE

Portable: This terrain feature only provides cover while an operative is connected to it and if the shield is intervening (ignore its feet). Operatives connected to the inside of it can perform the following unique action during the battle.

MOVE WITH BARRICADE 1AP

► The same as the **Reposition** action, except the active operative can move no more than its Move stat minus 2" and cannot climb, drop, jump or use any kill team's rules that remove it and set it back up again (e.g.

HEARTKYN SALVAGER• FLY, MANDRAKE• SHADOW PASSAGE).

► Before this operative moves, remove the portable barricade it's connected to. After it moves, set up the portable barricade so it's connected again, but the portable barricade cannot be set up within 2" of other equipment terrain features, access points or Accessible terrain. If this is not possible, the portable barricade is not set up again.

◆ This action is treated as a **Reposition** action. An operative cannot perform this action while within control range of an enemy operative, or during the same activation in which it performed the **Fall Back** or **Charge** action.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

RULE CONTINUES ON OTHER SIDE

SMOKE GRENADE

1AP

- ▶ Place one of your Smoke Grenade markers within 6" of this operative. It must be visible to this operative, or on Vantage terrain of a terrain feature that's visible to this operative. The marker creates an area of smoke 1" horizontally and unlimited height vertically from (but not below) it.
 - ▶ While an operative is wholly within an area of smoke, it's obscured to operatives more than 2" from it, and vice versa. In addition, whenever an operative is shooting an enemy operative wholly within an area of smoke, ignore the Piercing weapon rule unless they are within 2" of each other.
 - ▶ In the Ready step of the next Strategy phase, roll one D3. Remove that Smoke Grenade marker after a number of activations equal to that D3 have been completed or at the end of the turning point (whichever comes first).
 - ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

HAND OF THE ARCHON OPERATIVES

2

The Archons of the Drukhari Kabals are forever plotting to expand their sprawling criminal empires. Should their schemes require a subtle touch, they may turn to Hand of the Archon kill teams. These bands of assassins, thieves, torturers and worse wield an array of esoteric and macabre weapons to aid them in their diabolical missions.

KABALITE ARCHSYBARITE

Those who wield superiority among their Archon's elite have risen to power through ruthlessness and manipulative scheming. They are also dread combatants, for expert bladework and athletic strength are required to maintain authority.

KABALITE AGENT

Well equipped and with murderous talents honed by survival in Commorragh, Agents of Hand of the Archon kill teams are malevolent enforcers. Any prey they cannot painfully cut down with their splinter rifles, they slice apart with graceful sweeps of their numerous blades.

KABALITE CRIMSON DUELLIST

Crimson Duellists are vicious murder-artists who work with a gory palette of their enemies' viscera. Masters of various weapons, many hunt with the ostentatious razorflail, performing signature kills when their Archon requires a highly visible display of power.

'CROSS THE LADY MALYS, HOWEVER SLIGHT, AND YOU WOULD BE ADVISED TO SLIT YOUR OWN THROAT WITH A BLUNT BLADE. IT IS MORE PREFERABLE – AND FAR, FAR QUICKER – THAN THE REPRISALS SHE CAN DREAM UP.'

- A whisper heard in the slums of Commorragh

KABALITE DISCIPLE OF YELINDRA

Yaelindra founded an infamous cult of poisoners, said to concoct the most potent toxins known to the Dark City. Her adepts weaponise deadly venoms, lacing them into torment grenades or delivering them via hollow slivers fired by stinger pistols with horrific results.

KABALITE ELIXICANT

Elixacists are expert applicators of the various products of their Kabal's biochemical industries. Such stimulants, virulent narcotics and arcane synthetic hormones invigorate their fellow Kabalites in varying ways. To the enemy, however, they offer only slow and painful death.

KABALITE FLAYER

Drukhari hunger for others' pain, and Flayers are gruesomely adept at generating it in their victims. Their murders are neither swift nor clean, and with every pleasing scream they elicit from their foes, they unleash waves of empowering agony.

KABALITE GUNNER

From the darklight caress of blasters to the mesh of monofilament barbs unleashed by shredders, specialist Gunners of the Kabals revel in unleashing torment on the move. Such warriors may earn these potent weapons through skill, or kill their way to the position.

KABALITE HEAVY GUNNER

Drukhari weapons technology is far in advance of most races' capabilities, and Kabalite Heavy Gunners wield armaments of hellish power. Dark lances fire midnight beams that can vaporise foes, while splinter cannons scythe through the enemy with poisoned shards.

KABALITE SKYSPLINTER ASSASSIN

Used to scouting ahead, these operatives stand apart from their comrades and are seen as harbouring secret agendas. Such paranoia is a tool they know how to use in their favour, and the ominous sight of their razorwings haunts both foes and so-called 'allies' alike.

HAND OF THE ARCHON KILL TEAM
