NAME	ATK	HIT	DMG	WR

Inquisitorial Tomes: **STRATEGIC GAMBIT** if this operative is in the killzone and/or when this operative is activated. Select one of the following **INQUISITORIAL TOME** rules for this operative to have, and one for a friendly **INQUISITORIAL AGENT** **TOME-SKULL** operative to have (they can be the same, and ignore the rule you didn't select for each operative):

- Denunciation: Whenever a friendly **INQUISITORIAL AGENT** operative is shooting against, fighting against or retaliating against an enemy operative within 2" of friendly operatives with this rule, add 1 to the Atk stat of that friendly operative's weapons.

- Sanctification: Whenever an enemy operative is shooting against, fighting against or retaliating against a friendly **INQUISITORIAL AGENT** operative within 2" of friendly operatives with this rule, subtract 1 from the Atk stat of that enemy operative's weapons.

TOME-SKULL

APL ▼2 MOVE 6" SAVE 5+ WOUNDS 5

Consecrated Tome: This operative can have an **INQUISITORIAL TOME** rule (see **INTERROGATOR**). Note it keeps that rule even if that friendly **INTERROGATOR** operative is removed from the killzone.

Machine:

- This operative cannot perform any actions other than Charge, Dash, Fall Back and Reposition.
- It cannot retaliate or assist in a fight.
- Whenever determining control of a marker, treat this operative's APL stat as 1 lower. Note this isn't a change to its APL stat, so any changes are cumulative with this.
- Whenever this operative has a Conceal order and is in cover, it cannot be selected as a valid target, taking precedence over all other rules (e.g. Seek, Vantage terrain) except being within 2".

TOME-SKULL

APL ▼2 MOVE 6" SAVE 5+ WOUNDS 5

Expendable: This operative is ignored for your opponent's kill/elimination op (when it's incapacitated, and when determining your starting number of operatives). It's also ignored for victory conditions and scoring VPs if either require operatives to 'escape', 'survive' or be incapacitated by enemy operatives (if it escapes/survives/is incapacitated, determining how many operatives must escape/survive/be incapacitated, etc.).

Group Activation: Whenever this operative is expended, you must then activate a ready friendly **INQUISITORIAL AGENT** **INTERROGATOR** operative (if able) before your opponent activates. The same is true in reverse (**INTERROGATOR** followed by **TOME-SKULL**). When that other operative is expended, your opponent then activates as normal.

Irrefutable Report: Whenever this operative contests an objective marker or one of your mission markers, it always controls that marker. This takes precedence over all other rules.

Medic!: The first time during each turning point that another friendly INQUISITORIAL AGENT operative would be incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated, has 1 wound remaining and cannot be incapacitated for the remainder of the action. After that action, that friendly operative can immediately perform a free Dash action, but must end that move within this operative's control range. Subtract 1 from this and that operative's APL stats until the end of their next activations respectively, and if this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated, or if it's a Shoot action and this operative would be a primary or secondary target.

Your kill team can only include each operative on this list once, unless you're not including any REQUISIONED operatives, in which case you can include up to two GUN SERVITOR operatives, but each one must have different options. Your kill team (including any REQUISIONED operatives) cannot include more than one weapon with the Piercing 2 weapon rule, and cannot include more than three weapons with the Piercing X (excluding Piercing Crits X) weapon rule combined.

INQUISITORIAL AGENT[•] FACTION RULE

INQUISITORIAL REQUISITION

Few authorities in the Imperium have greater jurisdiction than the Inquisition. An Inquisitor can, on a whim, requisition forces from virtually any of the Imperium's military branches.

REQUISIONED operatives can be taken from one of the following groups to supplement an INQUISITORIAL AGENT[•] kill team, as specified in this kill team's selection rules:

- DEATH KORPS[•]
- EXACTION SQUAD[•]
- IMPERIAL NAVY BREACHER[•]
- KASRKIN[•]
- SISTER OF SILENCE
- TEMPESTUS SCION

CONTINUES ON OTHER SIDE ►

These operatives have their faction keyword replaced in all instances on their datacards with INQUISITORIAL AGENT[•] (unless they already have it). You cannot use ploys and equipment associated with a REQUISIONED operative's former faction keyword, and you cannot use a REQUISIONED operative's former faction rules unless specified on their Inquisitorial Requisition card (it only applies to those REQUISIONED operatives). Note that with their new faction keyword, REQUISIONED operatives can interact with the INQUISITORIAL AGENT[•] rules.

For example, a REQUISIONED VOX-OPERATOR operative from the DEATH KORPS[•] group would have its DEATH KORPS[•] keyword replaced in all instances on its datacard with INQUISITORIAL AGENT[•]. This allows you to select any other friendly INQUISITORIAL AGENT[•] operative for its Signal unique action. However, the Guardsman Orders faction rule isn't permitted, so its Relay Orders additional rule would be ignored. It would now also be a valid operative for the INQUISITORIAL AGENT[•] MYSTIC operative's Scry unique action.

INQUISITORIAL AGENT[•] STRATEGY PLOY

DENOUNCE

None escape the long arm of the Inquisition. Those denounced and proclaimed guilty quail before its vengeful Agents.

Select one enemy operative and roll one D3. In the Firefight phase of this turning point, that enemy operative cannot be activated or perform actions until it's the last enemy operative to be activated, or your opponent has activated a number of enemy operatives equal to the result of the D3 (whichever comes first). This ploy costs you 1 additional CP for each previous time you've used it during the battle (e.g. 1CP the first time you would use it, 2CP the second time, etc.).

INQUISITORIAL AGENT[•] STRATEGY PLOY

INTENSE SCRUTINY

There is no hiding from the all-seeing eyes of the Inquisition.

Whenever you're selecting a valid target for a friendly INQUISITORIAL AGENT[•] operative, enemy operatives within 4" of it cannot be in cover (instead of 2"). While this can allow such operatives to be targeted (assuming they're visible), it doesn't remove their cover save (if any), unless the friendly INQUISITORIAL AGENT[•] operative is within 2" as normal.

INQUISITORIAL AGENT[•] STRATEGY PLOY

QUARRY

For those judged guilty, there is no escape. Once marked for execution, the Inquisition's quarry is doomed.

Select one enemy operative to be your quarry for the turning point. Whenever a friendly INQUISITORIAL AGENT[•] operative is shooting against, fighting against or retaliating against your quarry, that friendly operative's weapons have the Ceaseless weapon rule. Whenever your quarry is incapacitated, you can select a new enemy operative to be your quarry (and can continue to do so during this turning point).

INQUISITORIAL AGENT[•] STRATEGY PLOY

IRREFUTABLE JURISDICTION

The Agents of the Inquisition are emboldened by their near-limitless authority, and will bow before neither traitor nor xenos.

Whenever an operative is shooting a friendly INQUISITORIAL AGENT[•] operative that's within 3" of an objective marker, you can re-roll one of your defence dice. If that friendly operative contests that marker, you can re-roll any of your defence dice results of one result instead (e.g. results of 2).

INQUISITORIAL AGENT[•] FIREFIGHT PLOY

ABSOLUTE AUTHORITY

All who know of the Inquisition fear its limitless reach. Those unfortunate enough to draw the ire of its Agents are often stricken by fear.

Use this firefight ploy during the battle, when an opponent uses a strategy or firefight ploy (excluding Command Re-roll or one that costs OCP). Their ploy isn't used, the CP spent on it is refunded and they cannot use that ploy again during this turning point. This ploy cannot be used to stop the same ploy more than once per battle.

INQUISITORIAL AGENT[•] FIREFIGHT PLOY

RELENTLESS IN PURSUIT

The Inquisition pursues its foes with dogged and relentless determination.

Use this firefight ploy when an enemy operative within 2" of a ready friendly INQUISITORIAL AGENT[•] operative performs an action in which it moves. After it moves, that friendly INQUISITORIAL AGENT[•] operative can either perform a free Reposition action, but must end that move within 2" of that enemy operative, or a free Charge action, but must end that move within control range of that enemy operative. If neither is possible, that friendly operative cannot perform those actions, this ploy isn't used and the CP spent on it is refunded.

INQUISITORIAL AGENT[•] FIREFIGHT PLOY

THE EMPEROR'S WILL

The Agents of the Inquisition enforce the Emperor's will. This authority emboldens them in their duties.

Use this firefight ploy when a friendly INQUISITORIAL AGENT[•] operative is activated. Until the end of that operative's activation, you can ignore any changes to its stats (including its weapons' stats).

INQUISITORIAL AGENT[•] FIREFIGHT PLOY

INTIMIDATING PRESENCE

Those that bear the sigils and authority of the Inquisition are rightly feared, even by the mightiest of foes.

Use this firefight ploy when an enemy operative visible to and within 3" of a friendly INQUISITORIAL AGENT[•] operative, or visible to and within 6" of a friendly MYSTIC operative, performs the **Pick Up Marker** or a mission action (excluding **Operate Hatch**). Your opponent must spend 1 additional AP for that enemy operative to perform that action (if they cannot or choose not to, the AP spent on it is refunded).

INQUISITORIAL AGENT[•] FACTION EQUIPMENT

INQUISITORIAL ROSETTE

A symbol of an Inquisitor's near-boundless authority, the rosette is feared by all.

Once per battle, when a friendly INQUISITORIAL AGENT[•] operative is activated, if you've used the Quarry strategy ploy during this turning point, you can use this rule. If you do, you can select a new enemy operative to be your quarry until the end of the turning point.

INQUISITORIAL AGENT[•] FACTION EQUIPMENT

COMBAT DAGGERS

In the press of melee combat, a simple dagger can be the difference between life and death.

Friendly INQUISITORIAL AGENT[•] operatives have the following melee weapon. Whenever a friendly SISTER OF SILENCE operative is using it, add 1 to its Atk stat.

NAME	ATK	HIT	DMG
Combat dagger	3	4+	3/4

INQUISITORIAL AGENT[•] FACTION EQUIPMENT

ARMOURED BODYSUITS

Lightweight yet tough, these form-fitting bodysuits provide an extra layer of protection to the wearer.

Whenever an operative is shooting a friendly INQUISITORIAL AGENT[•] operative (excluding TOME-SKULL) that has a 5+ Save stat, you can retain one of your defence dice results of 4 as a normal success.

INQUISITORIAL AGENT[•] FACTION EQUIPMENT

SERVO-SKULL

Servo-skulls are diminutive floating servitors that can be crafted and programmed to assist their operators with a wide range of tasks.

Once per battle, one friendly INQUISITORIAL AGENT[•] operative can perform a mission action for 1 less AP.

UNIVERSAL EQUIPMENT

1X AMMO CACHE

Whether stockpiles deliberately set out for warriors to access quickly, or the abandoned munitions of the slain, these caches can prove vital for a swift reload in the heat of battle.

Before the battle, you can set up one of your Ammo Cache markers wholly within your territory. Friendly operatives can perform the following mission action during the battle.

AMMO RESUPPLY OAP

- One of your Ammo Cache markers the active operative controls is used during this turning point.
- Until the start of the next turning point, whenever this operative is shooting with a weapon from its datacard, you can re-roll one of your attack dice.
- ◆ An operative cannot perform this action while within control range of an enemy operative, if that marker isn't yours, or if that marker has been used this turning point.

UNIVERSAL EQUIPMENT

1X RAZOR WIRE

Spoiled rapidly out and affixed to jutting posts, razor wire acts as an easily deployed barrier and a painful deterrent to enemy operatives seeking to attack along particular routes.

Razor wire is Exposed and Obstructing terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Obstructing: Whenever an operative would cross over this terrain feature within 1" of it, treat the distance as an additional 1".

UNIVERSAL EQUIPMENT

1X COMMS DEVICE

Communications devices can be swiftly hijacked and employed to coordinate operations or call in support during a firefight.

Before the battle, you can set up one of your Comms Device markers wholly within your territory. While a friendly operative controls this marker, add 3" to the distance requirements of its **SUPPORT** rules that refer to friendly operatives (e.g. 'select one friendly operative within 6"' would be 9" instead). Note that you cannot benefit from your opponent's Comms Device markers.

UNIVERSAL EQUIPMENT

1X MINES

The battlefields of the 41st Millennium are plagued by myriad types of mine, from simple frag charges to monofilament web-snare and microplasma charges. Ultimately, all serve a similar, horrible purpose.

Before the battle, you can set up one of your Mines markers wholly within your territory and more than 2" from other markers, access points and Accessible terrain. The first time that marker is within an operative's control range, remove that marker and inflict D3+3 damage on that operative.

UNIVERSAL EQUIPMENT

2X LIGHT BARRICADES

Designed to be lugged into place and then deployed by operatives and combat engineers, these barriers are proof against small arms fire.

Light barricades are Light terrain, except the feet, which are Insignificant and Exposed. Before the battle, you can set up any of them wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

1X HEAVY BARRICADE

A redoubtable slab of plasteel and adamantine, this layered protective barrier provides shelter amidst the fiercest firefights.

A heavy barricade is Heavy terrain. Before the battle, you can set it up wholly within 4" of your drop zone, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

UNIVERSAL EQUIPMENT

2X LADDERS

Carried into battle in their compacted forms, these ladders provide a rapid route of ingress to strongholds, or access to vital vantage points.

Ladders are Exposed terrain. Before the battle, you can set up any of them as follows:

- Wholly within your territory.
- Upright against terrain that's at least 2" tall.
- More than 2" from other equipment terrain features.
- More than 1" from doors and access points.

In addition, an operative can either move through ladders as if they aren't there (but cannot finish on them), or climb them. Once per action, whenever an operative is climbing this terrain feature, treat the vertical distance as 1". Note that if an operative then continues climbing another terrain feature during that action (including another ladder), that distance is determined as normal.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

STUN GRENADE

1AP

- Select one enemy operative visible to and within 6" of this operative. That operative and each other operative within 1" of it takes a stun test. For an operative to take a stun test, roll one D6: on a 3+, subtract 1 from its APL stat until the end of its next activation.
- ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

UNIVERSAL EQUIPMENT

EXPLOSIVE GRENADES

A variety of offensive grenades are employed by the forces of the 41st Millennium. These range from simple fragmentation grenades to plasma and gravitic concussion grenades, while even more exotic devices are used to crack open enemy armour.

When you select this equipment, select two explosive grenades (2 frag, 2 krak, or 1 frag and 1 krak). Each selection is a ranged weapon your operatives can use, but your kill team can only use that weapon a total number of times during the battle equal to your selection.

UNIVERSAL EQUIPMENT

1X PORTABLE BARRICADE

Little more than a suppression shield with armoured feet, these barricades can be hefted and borne forwards to provide mobile cover.

A portable barricade is Light, Protective and Portable terrain. Before the battle, you can set it up wholly within your territory, on the killzone floor and more than 2" from other equipment terrain features, access points and Accessible terrain.

Protective: While an operative is in cover from this terrain feature, improve its Save stat by 1 (to a maximum of 2+).

RULE CONTINUES ON OTHER SIDE ►

Portable: This terrain feature only provides cover while an operative is connected to it and if the shield is intervening (ignore its feet). Operatives connected to the inside of it can perform the following unique action during the battle.

MOVE WITH BARRICADE 1AP

► The same as the **Reposition** action, except the active operative can move no more than its Move stat minus 2" and cannot climb, drop, jump or use any kill team's rules that remove it and set it back up again (e.g. **HEARTKYN SALVAGER** FLY, **MANDRAKE** SHADOW PASSAGE).

► Before this operative moves, remove the portable barricade it's connected to. After it moves, set up the portable barricade so it's connected again, but the portable barricade cannot be set up within 2" of other equipment terrain features, access points or Accessible terrain. If this is not possible, the portable barricade is not set up again.

◆ This action is treated as a **Reposition** action. An operative cannot perform this action while within control range of an enemy operative, or during the same activation in which it performed the **Fall Back** or **Charge** action.

UNIVERSAL EQUIPMENT

UTILITY GRENADES

From neuro-suppressant psybombs to smoke-belching chemical charges, grenades of this sort can suppress the enemy and be the difference between life and death.

When you select this equipment, select two utility grenades (2 smoke, 2 stun, or 1 smoke and 1 stun). Each selection is a unique action your operatives can perform, but your kill team can only perform that action a total number of times during the battle equal to your selection.

RULE CONTINUES ON OTHER SIDE

SMOKE GRENADE

1AP

- ▶ Place one of your Smoke Grenade markers within 6" of this operative. It must be visible to this operative, or on Vantage terrain of a terrain feature that's visible to this operative. The marker creates an area of smoke 1" horizontally and unlimited height vertically from (but not below) it.
 - ▶ While an operative is wholly within an area of smoke, it's obscured to operatives more than 2" from it, and vice versa. In addition, whenever an operative is shooting an enemy operative wholly within an area of smoke, ignore the Piercing weapon rule unless they are within 2" of each other.
 - ▶ In the Ready step of the next Strategy phase, roll one D3. Remove that Smoke Grenade marker after a number of activations equal to that D3 have been completed or at the end of the turning point (whichever comes first).
 - ◆ An operative cannot perform this action while within control range of an enemy operative, or if you have reached the total number of times your kill team can perform it.

PREVIOUS RULES COMMENTARIES

This section provides clarification on ambiguous and complex rules interactions.

Q: If I requisition EXACTION SQUAD® operatives, can my other INQUISITORIAL AGENT® operatives benefit from the permitted Ruthless Efficiency faction rule?

A: No. Only the requisitioned EXACTION SQUAD® operatives can use the Ruthless Efficiency faction rule. Note that this means a requisitioned EXACTION SQUAD® operative will not be able to select an enemy operative as the valid target of a Shoot action if one of your other INQUISITORIAL AGENT® operatives that aren't EXACTION SQUAD® are within that enemy operative's control range.

Q: When using the Absolute Authority firefight ploy, can I use it after seeing some of the effects of a ploy the opponent uses? For example, if they must select an operative, can I use it after they select them?

A: No. You must use it when the ploy is declared, but before any of its rules are resolved. Note that we expect players to be sporting and give their opponent the opportunity to use Absolute Authority when they declare a ploy, before resolving its rules.

Q: When using the Intense Scrutiny strategy ploy, if my opponent has a rule that says it cannot be selected as a valid target, taking precedence over all other rules except being within 2" (e.g. HERNKYN YAEGIR® In Position), does this increase the 2" distance exception to 4"?

A: Yes.

INQUISITORIAL AGENT OPERATIVES

2

The reach of the Inquisition extends across the vastness of the Imperium. Inquisitorial kill teams bring together agents from all strata of Imperial society, from elite soldiers to zealous priests. Together, these disparate elements combine their skills to deadly effect, enabling them to root out and destroy heretics, aliens and the servants of Chaos.

INTERROGATOR AGENT

Ruthless, resourceful and skilled in all manner of clandestine and war-making skills, Interrogators are selected by the Inquisitor they serve for their dogged determination and unflagging loyalty, and are on the path to becoming Inquisitors themselves.

TOME-SKULL

These familiars are specialised servo-skulls designed to secure and hold open a treasured volume. The books chosen by Interrogators for a Tome-skull to bear into the field are seeped in holy power and filled with arcane lore, sanctifying ground and renouncing daemonic spirits.

AUTOSAVANT AGENT

Little remains of the original Human the Autosavant once was. Much of their form has been replaced with bionics dedicated to the recording of information. Whether in their base of operations or the heat of battle, they never cease their scribblings of every word and deed they witness.

QUESTKEEPER AGENT

Questkeepers – known also as Knight-Errants, Penitents and many other names – are fanatical zealots dedicated to the Imperial Creed. With an intense hatred for foes of the Emperor, they execute sworn quests to slaughter heretics and traitors.

DEATH WORLD VETERAN AGENT

Every Inquisitor knows that death worlds produce the toughest soldiers in the Imperium. Many go to great lengths to draft experienced death worlders, for these warriors' fighting skills are vital for hunting down the heretic.

ENLIGHTENER AGENT

Known to some as Excruciators or Truth-Peelers, these sadistic individuals are highly valued by Inquisitors for their utter lack of mercy and uncanny skill in extracting valuable information, even from the most uncooperative of prisoners.

GUN SERVITOR

More machine than Human, Gun Servitors are commonplace across the Imperium, and lobotomised to the extent that they lack any kind of capacity for independent thought. Used to fulfil mundane and difficult tasks, they carry hefty loads often including heavy weapons.

HEXORCIST AGENT

Hexorcists are holy men and women that are often mistaken for priests by the uninitiated. They believe that the Imperial Faith will only be spread at the barrel of a gun, and are experienced enough in the galaxy's many horrors to know they must fight tooth and nail for it.

MYSTIC AGENT

Using their empyric senses to 'see' hidden truths and the souls of those they hunt, Mystics engage in the most arcane of missions. They provide vital support to their team, scrying the future for dangers or creating shields of psychic energy.

PENAL LEGIONNAIRE AGENT

There are few better sources of expendable fighters with unusual skills and a need for repentance than an Imperial Penal Legion. These hardened criminals are useful with a blade and have nothing left to lose – perfect for the kind of suicidal missions Inquisitorial Agents must face in the Emperor's service.

PISTOLIER AGENT

Sometimes known as Desperadoes, these Agents are skilled killers who have honed their talents in the crime-ridden underbowels of hive worlds. Alongside the quick draw they have learned the value of the silent kill, as well as the ostentatiously explosive.
